

Western Illinois Works, Inc
WIOA Request for Application for One-Stop Operator
Questions and Answers

Question #1

Is it okay for the “Partners” to come up with a name, doing business as such in such instead of listing all of the names for the consortium?

**The consortium can submit an application under any name you choose.
Your application must include a list of all the partners who are members of
the consortium.**

Question #2

The 2 references I was going to use for IDES happen to be WIB members. Is that okay?

**You may use companies but not individual WIB members as references.
There is a potential conflict of interest because the professional
relationship may go beyond a customer relationship.**
